Embroidered Tributes

Interior Features

LifeStories Medallions

Just as the family shares their loved one's life story during the arrangement process, the LifeStories® Display Medallions can serve as a “visual eulogy” during the service. Beyond highlighting a single facet of the life that has passed, they are a beautiful expression of all that made the loved one special.

Interior Features

LifeView Panel

Photos are one of our most cherished ways to tell the story of a lifetime. Wedding pictures, family portraits, treasured snapshots from favorite events... Every image captures a moment and helps to share the memory of a loved one.

The LifeView[®] Panel is designed to display photos or other precious memorabilia in the lid of the casket.

Interior Features

Commemorative Panels

Located in the lid of the casket, commemorative tribute panels provide a personal way to highlight a loved one's interests, hobbies or values. Commemorative panels are available in a wide variety of designs, including spiritual symbols, organizational emblems, favorite pastimes and special relationships.

Interior Features

MemorySafe Drawer

This unique feature can be used to display cherished keepsakes during the visitation, or to secure private farewell messages to be buried with the loved one. For half couch models, the MemorySafe® Drawer is built into the lid of the casket. Select full couch caskets feature the MemorySafe® Chest, which can be taken home as a memento after the service.

Exterior Features

LifeSymbols Corners

A touching expression of the spirit, personality or interests of a loved one. With themes such as family relationships, spirituality, patriotism, sports and other hobbies, LifeSymbols are among our most popular personalization features. LifeSymbols designs can also be used as individual keepsakes for family and friends.

Exterior Features

Memorial Record System

A meaningful way to record vital information and fond farewells, the Memorial Record™ system can be used to enclose private messages and identification, with easy access from the exterior of the casket.

Memorial Feature

Living Memorial Program

The Living Memorial Program[®] is a unique and special way to honor the memory of a loved one. When you select a Batesville casket or Options[®] cremation product, we arrange for a tree seedling to be planted in a national forest or woodland as a living tribute and memorial to the deceased.

NOTE: Program is not available with NewPointe products or minimum cardboard containers.
